
Your design. Our production.

White-label interior visualization and technical-production support from Light Up Interiors, Yerevan. Established 2018. A 12-person design and drafting studio.

Light Up Interiors / residential visualization / source: light-up.am

Start with a clear paid pilot.

\$900 for one approved room up to 35 m², two final 3840 px views and two consolidated revision rounds. Seven production days after complete inputs and deposit; client review time additional.

Light Up Interiors / residential visualization / source: light-up.am

Match capacity to your workload.

Flex: \$1,800 / 40 hours. Studio Partner: \$3,200 / 80 hours. Production Team: \$6,000 / 160 hours. Combined team hours include production, coordination and revisions. Unused hours expire. Monthly renewal by agreement; prices indicative USD before taxes.

A controlled production relationship.

Approve the scope, standards and first camera or sample sheet. Receive scheduled previews through one named contact. Your team retains design direction, engineering and local approvals. Revit and specialist workflows require qualification before assignment.

Let's review your next project.
